Project Description

The U.S. Consulate in Cape Town has a collection of 72 pieces of artwork primarily by American artists. The Consulate collection is comprised of paintings, sculptures, photographs, prints, and other media, and is valued at over \$330,000. The Consulate has basic information about the artist and their artwork.

The Consulate seeks an intern to recommend and design a printed book and/or brochure on this collection of artwork, and, as feasible, design a virtual show of the artwork. This will require researching more about each artist and, when possible, each piece of art.
